

Size: Approx 160 cm x 110 cm

Materials: 400g Kunterbunt col. 1505 "Zauberball 100" (100% merino wool, 400m/100g), US size 3/ 3 mm needles or size needed to obtain gauge, stitch markers

Garter st: Knit every row

Wrap and turn in garter st (w&t): Knit to desired number of stitches. Turn work. With yarn in front, slip one stitch purlwise onto RH needle. Pull working yarn firmly to the back over RH needle as if to YO, creating two stitches out of the one just slipped. This is called a doubled st. Continue to knit across the row. On foll row, knit the double wrapped stitches together.

Selvedge st: The selvedge st will be slipped where needed at the beginning of the row when specified, otherwise simply knit.

Knit selvedge st together: At the end of the row, the 10th st will be knit together with the selvedge st of the neighboring triangle side. Tip: take the selvedge st off beforehand with another needle to make the knitting flow easier.

Gauge: 22 sts and 44 rows = 10 x 10 cm in garter st

Note: The shawl is worked from the middle triangle outwards in short rows.

Shawl: [1: See schematics below] For the middle triangle, CO 1 st. At beg of next row, inc 1 st- 2 sts. Rep this inc at beg of every 2nd row until there are 10 sts. Work 3 rows even in garter st. At beg of next row, skpo - 1 st dec. Rep this dec at beg of every 2nd row until 2 sts rem. Then, k2tog - 1 st rems. The 1st triangle is now complete.

From now on, the 1st side (short) will rem unknit. Therefore, a small corner [2] must be worked. With 1 st on the needle, CO 9 more sts- 10 sts. From now on, the shawl will be worked in short rows. K1, w&t, knit back. K2, w&t, knit back. K3, w&t, knit back. Cont in this pattern until 9 sts have been knit.

[3] Now, knit the 10th st tog with the corner st of the 1st triangle (1) working a skpo as folls: slip the 10th st, knit the taken off selvedge st, and pass the slipped st over (again 10 sts). Turn, slip the 1st st, k9, turn, k9, slip the 10th st, knit the foll selvedge st of the just worked triangle, and pass the 10th slipped st over. Then turn again, slip the 1st st, k9, turn, k9, slip the 10th st, knit the next taken off selvedge st of the just worked triangle, and pass the slipped st over. Cont working in this manner until all of the sts have been knit together and are located at the bottom corner [4].

Row 1: This corner will later make up the bottom portion of the triangle.

Row 2: k9, leave the 10th st unworked, turn.

Row 3: Work the 1st st as a doubled st (see w&t instructions above), k8, turn.

Row 4: k8, (leave the doubled st unworked), turn.

Row 5: Work the 1st st as a doubled st, k7, turn.

Row 6: k7, (leave the 2 doubled sts unworked), turn.

Row 7: Work the 1st st as a doubled st, k6, turn.

Repeat working in this manner until all sts have been worked as doubled sts (9 doubled sts and 1 unworked st from the first row), knitting over fewer and fewer sts each time due to the short rows. The last doubled st is located at the outside corner of the triangle. Now, knit all 9 doubled sts (both loops of the doubled st tog as 1 st) and knit the 10th st tog with the selvedge st of the just worked triangle side. Turn work, slip the 1st st, k9, then work doubled sts as for short rows like above, working outwards from the given edge. All unworked sts may rem on another needle.

Row 1: k1, turn.

Row 2: Work the 1st st as a doubled st, turn.

Row 3: Knit the doubled st (both loops of the doubled st tog as 1 st), k1 more st, turn.

Row 4: Work the 1st st as a doubled st, k1, turn.

Row 5: k1, knit the doubled st, k1 more st, turn.

Row 6: Work the 1st st as a doubled st, k2, turn.

Row 7: k2, knit the doubled st, k1 more st, turn.

Cont working in this manner, until the selvedge st of the just worked one side is reached. Once again knit the 10th st tog with the selvedge st. Mark the new corner; it is right of the line visible in the fabric.

Work along the 2nd triangle side as described [3] until the next corner, always knitting the 10th st tog with the slipped selvedge st of the just worked triangle, until all the sts of that side are knit tog. Now comes the point of the corner [5] that will be worked in numerous steps. For the pointed corner in the extension of the 10 sts of the triangle row, CO 10 sts- 20 sts total on the needle.

Knit the 1st and the 2nd st of the new CO sts, turn, w&t, knit the selvedge st, turn, knit the selvedge st, knit the doubled st from the previous row, k1, turn, doubled st, work back, turn, knit the selvedge

st, k2 (1 st being the doubled st), k1, turn, doubled st, work back. Cont working in this manner until all the new CO sts are worked. Now in every 2nd row, knit 1 st of the old 10 sts tog with the new sts- 10 times. When no more sts from the old 10 sts remain, insert again into every edge st of the previous row and knit it tog, as described above [3]. Now comes the point of the next corner [5], work again as described above. Cont working in this manner until 10 rows have been worked. The basic triangle in the middle [1] counts as the 1st row. Upon completion, a jagged border will be added. Work the 11th row with all corners and knitted tog selvedge sts as done before. However, on the outside edge work a jagged border as folls: on the longest side (side on top), inc 1 st 5 times on the outer edge and at the end of the row, opposite the decs (k2togs), inc 2 sts from the selvedge st. Knit back across the row, turn, at the end of the next row, again, inc 1 st from the selvedge st until there are a total of 15 sts on the needle. Now, on the side the sts were increased, k2tog along the edge on every 2nd row five times. The jagged border is now

complete. The entire upper border will be worked in this manner. The side border will be worked as folls: on every 4th row on the outer edge, inc 1 st from the selvedge st until there are a total of 15 sts on the needle. On the foll row, BO the 5 inc'd sts at one time and again on every foll 4th row, inc 1 st. Cont to work in this manner until the first side is complete. On the opposite outside edge, CO 5 sts and on * every 4th row, k2tog until 10 sts have been worked. On the foll row on the outer edge, CO 5 sts; repeat from * until the end of the corner. On the outer edge, k2tog until 10 sts have been worked and until the edging has reached the corner.

Finishing: Weave in ends and block under damp towels. Let dry. Fold the outer corner of the long side inwards towards the middle triangle and sew small seams to create fastened armholes if desired, so that the shawl does not slip off the shoulders.

Schematic

Abbreviations

beg = beginning
BO = bind of
ch = chain(s)
CO = cast on
cont = continue/continuously
dec = decrease(s)/decreasing
inc(s) = increase(s)/increasing
k = knit
LH = Left Hand
MIR = Make 1 Right
num = number

rem = remain/remaining
RH = Right Hand
RS = right side
sc = single crochet
(UK: dc = double crochet)
sl st(s) = slip stitch(es)
st(s) = stitch(es)
w&t = wrap and turn
WS = wrong side
yo(s) = yarn over needles / yarn overs
